What is this webinar about?

This webinar is designed to help founders decode the practical side of fundraising from an investor's perspective. From understanding how startups are valued to negotiating smarter deals and identifying red flags in term sheets, the session will provide founders with a clear, structured understanding of how investment deals actually work.

Whether you are preparing for your first raise or planning future funding rounds, this session will help you approach fundraising more strategically and confidently.

Key Takeaways

- Understand how investors practically value startups
- Learn the difference between pre-money and post-money valuation
- Understand startup dilution with real examples
- Learn how multiple funding rounds impact founder ownership.

What will you Receive?

- Startup Valuation Calculator (Excel)
- Dilution Simulator (Excel)
- Editable Term Sheet Template
- Term Sheet Red Flag Cheat Sheet
- Certificate of Completion by Aurex Ventures
